ABOUT US

Aditya Paper Industries is a leading manufacturing unit in Rajasthan that specializes in the Paper Cup Industry. Our journey started in the name with Swastik Paper Mart in 2010 just one Paper Cup Forming Machine, after that we increase our capacity and knowledge year by year with new technology, latest machines and add on process

Our strength lies in the efficiency of our production lines. Having installed online printing which uses food grade inks and process to high speed cutting machines for different sizes the food grade norms were always complied. Our Coated board product covers substances from 140 gsm upto 350 gsm with various range of paper coating. Hygiene and online check form the basis quality checks. A dedicated lab that check the product at various stages of production which include odor, visual, leakage and migration tests is in place. We have always made sure that the product before leaving the factory is checked for its packaging and a batch no. that helps us with traceability and status control for each and every case.

Future is already here. The range of our paper cups starts from 2.5 oz to 22 oz. The paper used stickily is the First Grade Cups Stock Mills. The cups are sturdy and complying to the norms for hot and cold beverages. With sufficient range to ctaer to growing needs of disposable cups and plates we hope to be a part of your business very soon. We look forward to serving you with our whole hearted support.
